[Before Prozac: The Troubled History of Mood Disorders in ...](#)

Before Prozac is a nuanced, timely, and provocative book written by an incisive thinker at the height of his considerable intellectual powers. Prof. Shorter's powerful arguments demonstrate clearly the value of historical perspectives when evaluating current medical practices, and serve as a sobering reminder of the transitory nature of many psychiatric treatments and, indeed, psychiatric categorisations."--

Rock'n'roll mirrors society's changing attitudes about sex. The women who fainted at Little Richard and Elvis Presley concerts, Sid and Nancy's troubled punk-rock relationship, and the Riot Grrrl movement transformed sexual mores. Renowned historian Edward Shorter explores the connection between sex and the music that defined 20th Century culture in this funny and incisive short account.
