You'll gain an understanding of the European model for privacy enforcement, key privacy terminology and practical concepts governing the protection of personal data and trans-border data flows. This course is designed for anyone whose work is related to the processing of personal data, particularly those in the public sector and from EU institutions, agencies and bodies, including:

[IAPP Certified Information Privacy Professional CIPP-E](#)

There is no information privacy (rules governing collection & handling of information) without information security (protection of information). Some aspects are quite distinct: notice is pure privacy, integrity is pure security. There is also some overlap between both concepts: use, confidentiality, and access to data.
