EPIDEMIOLOGY IN MEDICINE HENNEKENS

Nov 25, 2020

[Epidemiology In Medicine Hennekens](#)

Epidemiology is the simplest and most direct method of studying the causes of disease in humans, and many major contributions have been made by studies that have demanded nothing more than the ability to count, to think logically, and to have an imaginative idea. With the accumulation of knowledge, however, its has become harder for individuals working alone to make effective contributions, and epidemiological research is becoming increasingly a matter of teamwork, not only because of the ...
